GETTING TO KNOW

ROGERSON COMMUNITIES

Paula Thier
Board Chair

James F. Seagle, Jr.
President

Rogerson Communities has been providing housing and health care for elders and low-income individuals and families since it was founded in 1860. Today, the non-profit organization serves more than 1,500 Greater Boston families through 26 facilities and programs. These services include housing, adult day health programs, fitness training and memory loss care and treatment. As a non-profit, Rogerson must raise private funds to support its properties and programs.

ROGERSON COMMUNITIES:

- Pioneered adult day health programs, and now serves 350 medically disabled and memory impaired clients annually through five programs.
- Offers Rogerson Fitness FIRSTSM — a strength, mobility, balance and flexibility training program where elders use specially designed Nautilus equipment — free of charge to day program participants and residents of affordable housing facilities.
- Successfully completed the conversion of six historic Boston buildings into affordable housing, as one of Greater Boston's preeminent historic preservation developers; several more are currently in development.
- Encourages interaction between residents and their neighbors by offering community spaces in Rogerson facilities to the broader community.
- Led the way in establishing the service coordinator model for independent elder housing, and also was the region's first management company to encourage elders to keep pets, a policy which is now used as a national model.

HOUSING & REAL ESTATE DEVELOPMENT

Rogerson develops and manages innovative, affordable housing for elders and working individuals and families. We work with local communities to reclaim abandoned property, realize complex real estate projects and revitalize neighborhoods.

HEALTH AND FITNESS

Rogerson is the area's premier provider of adult day health and fitness programs for frail elders. These services allow older adults to live independently while saving thousands of dollars on nursing home care.

ALZHEIMER'S AND MEMORY LOSS

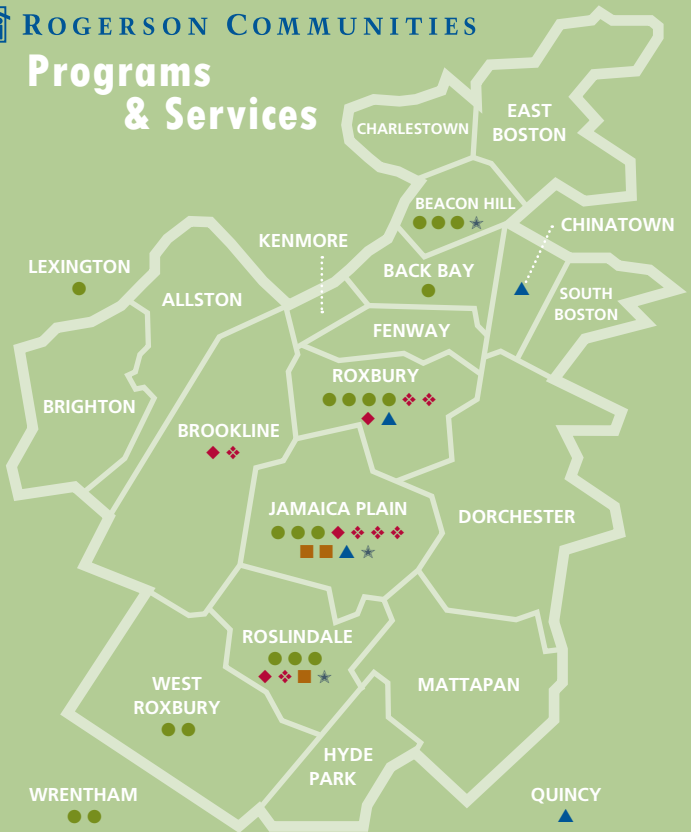

Rogerson is an expert resource for families affected by Alzheimer's disease and memory loss, offering assisted living, day programs, respite care, and educational programs.
